What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you will find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign. If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Aspects between the planets are also listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days, making it quite possible that someone is born on a day in which the Moon sign changes. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (example the Sun changes signs every 30 days or so). For an unknown time, on some birth dates the Moon may be in one of two possible signs. The possible range for Moon signs can be determined by noting the sign at 00:01 and also at 23:59.

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be downright timid in love, and that same person can be aggressive in business. Not only that, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the largest benefits of astrology is the ability to understand ourselves better so that we can work with our natal charts rather than against them. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations that follow are detailed, while others are brief. You can do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables here show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart report.

### Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

## Aspects

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. Negative values suggest more stressful or challenging influences while positive numbers show more flowing, easy energy.

## Birth Chart

This birth chart report shows the positions of the planets for Zach .

The Sun represents vitality, a sense of individuality and outward-shining creative energy.

### Sun in Aries

Aries is the first sign of the zodiac, and Aries natives are the first to start--and the first to finish--whatever they set out to do. Aries is an active, energetic sign. People with Sun in Aries are direct, straightforward, and uncomplicated. They expect the same from others, and are baffled when they don't always get it.

The body comes first with Aries. Sun in Aries people are natural athletes. At the very least, their natural inclination is to use their bodies to get things done. They're not given to long, drawn-out emotional moments; nor are they big on planning ahead. Instead, they live their lives simply. What is happening right now is most important to Aries. Impatience is a definite vice, and innovation is a huge strength. Aries loves to start anything new, and they have trouble sitting still. They are pioneers in whatever they do, and there is a very basic quality of bravery in these people that is unmistakable! Aries generally knows what they want, and they know the quickest route to getting it. They take shortcuts if they must, but generally everything is aboveboard. Underhanded just isn't their style. Some Aries people are bold, but even the quieter ones are brave and even plucky in their own way. Independence is their birthright. Nothing gets them going more than a fresh slate, the promise of a new day, and a brand new start.

Aries enjoys a challenge, and Aries Suns are happiest when their lives are moving forward and active. There's a childlike quality to all Aries Sun people, and it's often quite charming.

He has a strong personality and an entrepreneurial spirit. He is ambitious and self-willed, stubborn, obstinate and tenacious.

Weaknesses: nervousness, impulsiveness, wastefulness, provoking nature, restlessness and changeability.

### Aries ascendant Scorpio

#### Sun in V

You want to be noticed for your unique and special qualities and your creativity. You are happiest when you are expressing yourself in a special way and attention comes your way as a result. You have a flair for drama and/or sports. You are proud of your fun-loving attitude towards life. As you demonstrate your ability to shine, avoid

grabbing center stage all of the time. Your happy disposition is enough to get noticed, but do find creative ways to express yourself, as this is the path to true happiness for you.

#### 49 Trine Sun - Uranus

It is natural for you to question tradition. You are, above all things, an individualist. You naturally rebel against that which is established. It doesn't mean that you consistently break all the rules, but you definitely do question some of the rules, especially those that simply don't make much sense. You possess a huge distaste for routine. You work best when you have some say as to when and how you get things done. You possess much self-integrity. You avoid labeling people and are most offended when others attempt to label or stereotype you.

You easily embrace new ways of doing things, you stick up for the underdog, and you express yourself in unique and inspiring ways. You don't have to try to stand out as unique--you are original, creative, and progressive without trying. You are far from pretentious. You value honesty and truth, and you avoid putting on airs. You believe in the equality of people, and easily relate to people from all walks of life. You possess an unmistakable enthusiasm about life, and generally your life is interesting because you invite unusual or adventurous experiences into your life. You are generally appreciated by others because you are open-minded, fair, and not judgmental. Nothing really seems to faze you! You take things in stride, and are rarely shocked or taken aback by human behavior.

#### 372 Conjunction Sun - Lilith

The Moon represents the emotional responses, unconscious pre-destination, and the self-image.

#### Moon in Capricorn

Being useful and productive are basic needs for Lunar Capricorns. Because they generally keep their emotions under check, Moon in Capricorn people come across as competent people. However turbulent their emotions may be under the surface, Lunar Capricorns keep cool-headed--and they come across as steady and reliable people. This position of the Moon suggests a desire for clear boundaries and realistic goals. Not much for taking risks in life, Lunar Capricorns look for safety and security in most everything they do. Most of them respect authority and tradition, and many are planning well ahead of the rest of us. You likely won't have to remind them to protect their interests, plan for old age, or keep fall-back money in their bank accounts. These things come naturally to them.

Calm, cool, and collected--these words sum up Moon in Capricorn natives well. Messy emotions and "leaky" souls are a bit frightening for most with this position of the Moon. Truth is, they can have plenty of mood swings and some dark emotions now and again. Lunar Capricorns are often quite hard on themselves, and would benefit

from letting their guard down once in a while. They quickly garner reputations of being mountains of strength, and they easily hide their sensitivity behind a sarcastic manner.

You may have read that Moon in Capricorn natives are a bit cold and calculating. The fact is, they are unlikely to be any less emotional than the other 11 sign positions of the Moon--they simply aren't comfortable "letting go" when it comes to emotions. They keep their emotions under control. Wherever Capricorn is found in the chart, there is a desire for structure and control. Capricorn is the sign of organization and efficient management; so, when the Moon is found in the sign, the world of emotions are well-managed and handled in an efficient and practical manner. At the heart of Lunar Capricorns is a powerful need to feel worthwhile in the real world. There's a basic need for respectability and a big attachment to the world of the senses. Lunar Capricorns put a lot of value in all things tangible and real. And, perhaps more than anything, they need to be respected by others in order to feel secure.

Short description:

Reserved and cautious. Attracted to politics. Selective, earthy, success comes by means of other people, who recognize his qualities.

Weaknesses: material worries, savings, restrictions. Does not get carried away by love.

Moon in II

Very ingenious and inventive where earning money is concerned. Moves around, restless.

When it comes to money, you can be generous and frivolous in your spending habits one day, and frugal the next. You can be quite afraid of being in debt, and need to feel that the bills are paid in order to feel secure and safe. This is likely also true of savings, as you fear being without. Still, there are times when you can spend impulsively, on a whim, and this is likely when you are feeling emotionally frustrated. You might also hold onto people quite tightly. Vanity can be an issue. You are often looking for admiration, and you can be quite dependent on others for positive feedback until you learn to develop your own feelings of self-worth. You're not as emotionally responsive as most people. You tend to hold back and wait before expressing yourself, and when you do it is with deliberation.

-85 Square Moon - Mercury

There is a conflict here between the head and the heart. Your emotions tell you one thing and your mind tells you something else. The result is a see-saw effect: you can be emotional to the point of irrationality at one moment, and logical the next. How to blend the head and the heart is a constant struggle for you, usually because you have a tendency to resist blending them! You love to chat, enjoy story-telling and writing/poetry, sometimes enjoy bending the truth, and you possess a sparkling wit! You are animated when you speak, and have a sense of humor that others appreciate

simply because it's very imaginative. You may be especially adept at satire. People can usually read your mood by how much you're talking. When nervous or excitable, you talk up a storm. Moodiness is a characteristic, definitely, and an especially subjective nature makes you prone to hypersensitivity. It usually has to do with the fact that you take in so very much from your environment. This is also one of the reasons why you tend to be indecisive. You may swing between irrational and rational thoughts and feelings. It's pretty much something that takes place "upstairs" in the mind, although others are sure to see the struggle from time to time. You are always interesting, and usually funny. You have a tendency to misrepresent yourself with what you say from time to time, but you're a charming, if a little kooky, friend.

#### -71 Square Moon - Venus

Because you value harmony, you may find yourself giving in to others too easily, especially in the first half of life. Resentment is possible, as you can feel that you are the one who seems to do all the acquiescing. There can be a distinct tendency to become friends (and lovers) with people too readily, simply because there is a strong need for approval and a hunger for receiving affection. As such, you may get involved with people who seem to really like you, and you fail to consider whether you actually like them back! It's somewhat of a weakness, as you are very charmed by the idea that someone seems to really like and appreciate you. Generally, one of your life's lessons is to learn to discriminate more and to get in touch with what you truly want and need. The functions of the Moon (which rules the emotions and feelings, amongst other things) and the functions of Venus (which rules social relationships, harmony, and partnership, amongst other things) are at cross-purposes. When you attempt to feed the needs of one function, it is often at the expense of the other, until you find some sort of balance. This can play out in a variety of ways. For example, there can be conflicts in partnerships about parenting or whether or not to have a family. You may find yourself compromising your own emotional needs in order to find and keep love. Peace and harmony are important to you--perhaps too much so, as you can easily be taken advantage of. Insecurity is something that you need to deal with at some point in your life. Very sensual, you sometimes replace love with food or shopping! You can also be quite sexually active and sometimes quite lustful. You possess a distinct lazy streak. You are capable of working hard, but you truly appreciate luxuriating and enjoying as many pleasures as possible, and self-discipline simply isn't always at your disposal!

#### 96 Conjunction Moon - Neptune

Positive aspect: He is kind and sympathetic, with a strongly compassionate nature. When in love, he is usually very devoted. In fact, he is devoted by nature, not only in matters of the heart.

There is an unmistakably compassionate and understanding side to his nature. He has a natural affinity to music. While everyone enjoys music, people with Moon in harmonious aspect to Neptune respond to music as a vehicle to heal, relax, and to uplift the soul. Naturally perceptive, without even trying he tunes into the feelings of others, and the mood of his surroundings. There is a distinct emotional need to

escape into the world of imagination, and to withdraw from others at times when he needs to re-center himself, largely because he tends to "take in" a lot of mixed energies from his surroundings. Strong and sudden "feelings" and hunches can overcome him. More often than not, his intuition is correct, although his imagination is also powerful and he can read too much into a situation as a result. Some laziness is associated with this position. This stems from a natural timidity and sensitivity that is apparent from youth. He may have been labeled "shy" in youth, and family members or friends may have jumped in to "save" him from situations that required boldness or aggressiveness. Thus, passivity was accepted and, as adults, he may be less experienced than most when it comes to reaching out or going after what he wants.

#### 70 Sextile Moon - Ascendant

He has a good influence on the family, which loves and helps the person. He likes travelling, movement, change. He likes contact and is open to other people.

Mercury represents communication, Cartesian and logical spirit.

#### Mercury in Aries

He makes quick decisions, streamlines learning, is direct and straightforward in speech, possesses an innocent charm, and can easily motivate others with his enthusiasm. Loves a heated dispute. Lively mind which quickly understands a given situation. He is very resourceful and capable. Prefers to jump into a decision and doesn't have much patience with pretense.

#### Mercury in IV

Good education, he is cultivated, likes literature, family life and family relationships.

You are an extremely imaginative person who dreams up all sorts of unusual ideas and plans. Your thinking is quite subjective, and in some cases narrow or biased. Some of you might enjoy working at home or keeping a lively, intellectual atmosphere in your home. You tend to retain a lot of information, and are usually quite interested in history, psychology, or politics. You are not quick to embrace a new idea or plan, and can be quite traditional in your thinking.

#### 358 Conjunction Mercury - Venus

He looks on the bright side of life: he is gay, agreeable, optimistic, sociable. He likes to speak and write, and does both with charm and artistry. His intellectual pleasures are influenced by his feelings. He is amorous and sensual. He likes beauty, the Arts but also travelling.

#### 71 Sextile Mercury - Jupiter

He is intelligent, has big ideas: he is tolerant and has a strong sense of justice. He has good judgement, good sense and has his feet on the ground. He has the "gift of the gab", and likes to speak, he also likes literature. He is erudite and will normally be

successful socially.

-42 Square Mercury - Neptune

He makes errors of judgement, and lacks sincerity. He lets things happen, and is happy in his dreamworld. Confronted by reality, he is hesitant, incapable of being tested and falls back into his imaginary world. He might become a drug-taker.

Venus represents an interest for emotions and values, exchange and sharing with others.

Venus in Aries

Venus in Aries people flirt by being up-front, direct, and even daring. They try to win you over by expressing how enterprising and independent they are. Their style of expressing love can be maddeningly "me"-centered, but the right person for them will find this approach charming. People get turned on by Venus in Aries' aura of innocent charm, even when they are being childish and impatient. Venus in Aries people behave in a childlike, fun-loving manner in love. They are turned on by energy and activity. Turn-offs include a relationship that is considered stuffy or too "mature", vagueness, and beating around the bush. In love, Venus in Aries people are hopelessly addicted to the conquest. In order for a relationship to remain fresh and new for them, they require plenty of stimulation.

Pleasing Venus in Aries involves fueling their need for action. Be direct, open, and honest with them -- they won't much like game-playing or evasiveness, unless it is in the complete spirit of fun. Feed their need for spontaneity, and appreciate their playfulness. Understand their desire for the relationship to remain young and fresh. Aries likes to take the lead in love (even if their Sun Sign is gentle Pisces) -- let them, at least most of the time. Indulge them their many whims, and understand that they thrive on competition, even when they're competing with you!

Short description:

Wants to take the lead in love, loves the conquest, can be a spendthrift with money, is given to making impulsive purchases, likes to keep things exciting in love. Very ardent. Spontaneous and charming in his direct and straightforward approach in love.

Venus in IV

He is lucky enough to have many happy occasions all through life. Strong friendships which can affect the emotional life. He usually makes a good marriage. Happy family life. Good work situation.

You seek balance, beauty, harmony, and peace in your home and domestic life. You might be especially attracted to luxury or quality/comfort items in the home, and you likely have an eye for interior decorating. There is a loving, personal touch to the way you decorate your home. Your love is decidedly sentimental, and you show your affection through nurturing and displays of sympathy. You don't give your heart out easily, but when you do, you do it with great emotion. It's very easy for you to become

attached to a partner, and possibly smothering or overly dependent if you are not careful. Your parents' marriage affects your own partnering skills and style more than most. A parent may be especially charming, beautiful, or otherwise Venusian. On the negative side, this parent may have been especially indulgent or overprotective with you.

#### 87 Sextile Venus - Jupiter

He is good-hearted, generous and has a good character. He likes well-being, comfort, a life without problems. He has good relations with his circle. He is easy to approach. All the same, he falls in love easily. He has a successful married and professional life.

#### -15 Square Venus - Neptune

He might lack self-confidence and his ideals are not easy to achieve. In love, he is unstable and deceitful or meets people who are like this. He is easy-going and follows others' wishes in love, and he lets the partner take the initiative.

This aspect indicates a suggestible romantic nature. Being "in love with love" is a strong possibility. You are naturally compassionate and are generally willing to go over the top for a loved one. It's hard to say whether your expectations in personal relationships are too high or too low. On the one hand, you tend to easily accept behaviors in your partners that others wouldn't accept, as you are compassionate and even drawn to people who others might consider trouble. On the other hand, your romantic dreams may be so powerful that you are easily disappointed with the reality of relationships. Deception in love is possible, but self-deception is even more likely. In love, you see what you want to see, rather than what is. Feelings of being used or deceived may come up. However, if a distinct pattern exists in your love life that involves you being let down, deceived or used, it will be especially worthwhile to examine whether self-deception was at work.

The possibility of clinging to romantic delusions is very high with this position. For example, some with these aspects cling to a romantic notion that someone loves them when in reality that person doesn't return the affection. Or, they may cling to a romance that has lost all hope. Another possibility is devoting their love to someone who is unattainable or who is unable to commit. Yet another Venus-Neptune scenario is loving someone who treats them badly, all the while clinging to an idealized image of the partner. No matter what the scenario, romantic yearning and longing, as well as delusion, tends to be the theme. The expectation here is that loving someone requires self-sacrifice. The result is an attraction to relationships that are co-dependent and even abusive. Venus-Neptune people are drawn to victim/savior relationships, and they can play either the role of victim or savior! Dependency or neediness in a partner can be confused for love. In an attempt to love unconditionally, you may too readily sacrifice your own needs and eventually feel used.

\n\nMars represents the desire for action and physical energy.

#### Mars in Taurus

"Slow and steady wins the race" could easily be a motto for Mars in Taurus. These goal-oriented people are not known for their speed, but their staying power is tremendous. Generally calm and easygoing people, Mars in Taurus natives can have powerful tempers when they're overly provoked. They generally don't fly off the handle as quickly as others, however (unless Aries is prominent in their chart). Mars in Taurus people value strength and stability. They are driven by security and an especial fondness for personal possessions. Most are not afraid to work for what they want, and there is an overall patience to this position of Mars. If it takes a few years to achieve their goals, so be it. People born under a Mars in Taurus are often rather sensual people. Some are slow to arousal, but theirs is an earthy and powerful sensuality.

Most have well-defined long-term goals and the determination to achieve them. They usually are not the type of people to take on too many projects at once. If they don't think they can do it, they won't! It is almost impossible to get these people moving once they've made up their minds on a matter. You want them to go shopping with you? Unfortunately for you, about half an hour back, they've kicked up their heels, changed into something comfortable, and they simply won't budge. Immovable is the only way to describe Mars in Taurus people who have made up their minds. Adaptability is not their strong point. In a similar vein, attempting to rush Mars in Taurus people is a lesson in frustration. They won't alter their pace for most anything. If you can get past these "quirks", however, you'll find that Mars in Taurus natives are often quite reliable and strong personalities. It may just be worth the wait!

#### Mars in VII

He dominates his associates, colleagues. He is the same in love life, dominating the spouse and this makes for a stormy relationship in prospect.

#### -11 Square Mars - Jupiter

He refuses to accept any guidance. He lacks forethought, acts impulsively and sometimes imprudently, which can cause problems. He wants everything yesterday and uses whatever means necessary to achieve his objectives, even if they are dishonest or not very commendable. His emotional life is fraught with quarrels and sometimes violent conflicts.

#### -32 Opposition Mars - Saturn

He is only interested in doing something if there are problems attached: once these are solved, he goes on to something else which has complications. He likes to overcome obstacles, is tough, does not have too many feelings, especially in business. He is egoistic, violent and stubborn. He does not always make friends.

#### -31 Opposition Mars - Ascendant

He is quarrelsome, critical and violent. His success is obtained by dubious means.

Jupiter represents expansion and grace.

## Jupiter in Aquarius

He attracts the most good fortune when he is tolerant and fair, inventive, impartial, and cooperative. Values people and personal freedom most. Wants to show unique perspective or skills. Open to new methods and progress. Great tolerance and humanitarianism.

## Jupiter in III

He has good judgement, a sense of values, an open and optimistic mind, a good education and high moral standards. He likes studying. He is successful in communications work. His professional work is a vocation and plays a great part in his life.

## 21 Sextile Jupiter - Uranus

He knows what's going on at a glance. He thirsts after knowledge, and is a good organizer. He is very independent, likes his freedom of action, is a non-conformist. He is very agreeable company and is always in demand.

## -46 Square Jupiter - Ascendant

He appears to have a very honorable and generous attitude toward others, as if he has their best interests at heart. Because to others he seems tolerant, understanding, or even wise, they may also turn to him for advice. May go to excess when eating.

Saturn represents contraction and effort.

## Saturn in Scorpio

Observant, self-controlled, unforgiving, tough, methodical, a researcher, an investigator. Lots of courage, self-assurance and can keep his cool.

Weaknesses: makes no concessions or compromises. He can become a fanatic of a creed, a party, work or a religion.

## Saturn in I

He can be self-conscious in new situations, especially when young. His manner is somewhat cautious and guarded. First reactions to new ideas or plans are reticent and somewhat negative, but these are only first reactions. Can be methodical, patient, somewhat distrustful, polite. He speaks little at first and does not waste energy unnecessarily. He has a good memory and sense of organization, likes to do things well. He is never slapdash and has a strong sense of responsibility.

Uranus represents individual liberty, egoistic liberty.

## Uranus in Sagittarius

He is shy, delicate but proud, bold and lively.

## Uranus in II

He has a lot of flair. He is unreliable at work, always ready for change. He must have an out-of-the-ordinary job, in which case all goes well: otherwise, he will often change jobs and will have financial problems.

Neptune represents transcendental liberty, non-egoistic liberty.

Neptune in Capricorn

He is discerning, wise and sensible.

Neptune in II

He may prefer not to attach too much value to money, but if this is overdone, there can be quite a few problems in life concerning money and ownership. He might make money through artistic pursuits, but must avoid the potential pitfalls of putting too much faith in ideas that don't have enough grounding in reality. Financial advice is important to obtain.

89 Sextile Neptune - Pluto

Pluto represents transformations, mutations and elimination.

Pluto in Scorpio

Great sexual activity.

-2 Opposition Pluto - Lilith

He will lead a double life. He will have a secret love affair. Sexual compatibility is the main feature of this relationship. But the secret won't last long and a scandal will follow, or at the very least there will be problems.

3 Conjunction Pluto - Ascendant

He has will-power and ambition, and likes to have his own way.
